USAbLe Life
Little Rock, AR**

Dear USAbLe Life Recruiting Committee,

As a first-year Senior at the University of Arkansas, I am constantly learning things about the Information Science career path. Along with these skills, I have also learned business savvy skills such as customer service, management, accounting, and much more. My educational and personal background aligns well with the qualifications you are seeking at USAbLe Life. I am certain that I would make a valuable addition to your organization.

I am proficient in Microsoft Suites, and I am a very swift learner. I have experience with C++, Java, SQL, HTML, CSS, and JavaScript programming along with Project management. I am currently taking classes that will improve my knowledge about developing, implementing, maintaining, and testing software applications. I do not have much work experience, but I have lots of volunteer experience from being a part of the Chancellor's Leadership Scholarship Program, and I'm always open to learning a new skill.

I have a passion for helping others. I am extremely enthusiastic about USAbLe Life's focus on providing customers with services and products that will better their lives. I have volunteered at many nonprofit organizations, so I know the joy that comes with making a difference in someone's life. I would welcome the opportunity to contribute to your ongoing growth and success.

Thank you for your consideration and for your time. I look forward to the opportunity of speaking with you soon.

Best,

Sydni Curry
